**STATEMENT OF COMPLIANCE WITH THE
FCC'S CUSTOMER PROPRIETARY NETWORK INFORMATION (CPNI) RULES**

To the best of my knowledge, Global Connection Inc. of America ("GCIA") is in full compliance with the FCC rules on CPNI and its requirements for the safeguarding of such customer information. The Company's operating procedures ensure that it is in compliance with the FCC's CPNI Rules because disclosure of, or permitting access to, our customers' CPNI is not allowed without obtaining the requisite customer approval, except as required by law, or the exceptions set forth in 47 U.S.C. Section 222, and Subpart U of Title 47 of the Code of Federal Regulations; 47 C.F.R. Section 64.2001 through Section 64.2011.

The Company has internal procedures in place to educate our employees about CPNI and the disclosure of CPNI. Employees with access to this information are aware of the FCC's rules and are prohibited from disclosing or permitting access to CPNI without the appropriate customer consent or as allowed by law and the FCC rules. Any employee that discloses CPNI is subject to disciplinary action and possible termination.

The Company has not taken any actions against data brokers in the past year concerning the unauthorized release of CPNI. As a matter of fact, the Company does not release CPNI to any brokers as of this date. Also the Company has received zero (0) customer complaints relating to the unauthorized access to CPNI, or unauthorized disclosure of CPNI. The Company realizes the industry-wide pretexting problem and has implemented several safeguard procedures to protect its customers CPNI such as password protection and authorized user lists, to name a few.

Company CPNI Status: To the best of my knowledge and belief, the Company does not presently use, sell or otherwise release CPNI for marketing or other commercial purposes. If our customers' CPNI is to be used for sales and marketing campaigns in the future, the appropriate safeguards will be implemented in accordance with 47 C.F.R. Section 64.2009.
